

I think that Highland is awesome. It has a good school and lots of extracurricular activities for kids to be involved in. Kids can do sports, dance classes, music classes, and much more. One awesome thing about Highland is the downtown area. There are so many things to do like ride your bike along the trail, walk to shops, and take your dog around the park. But my favorite thing to do in downtown Highland is the summer musical theater production.

I like to do theater and I've done two shows in Highland over the past two years. It's pretty cool because I love to dance and sing. I'm in The Little Mermaid and I played a mini red crab. My favorite part was being chased around the stage by the chef when he was trying to feed Ariel. Maybe you saw me? My second show was Joseph and the Amazing Technicolor Dream Coat. This show was fun because we got to sit on the front steps of the gazebo for the whole show. I am sad to not do the production this summer, because they raised the age limit to 12 and up, and I am only nine.

Downtown Highland also has great places to eat. Some of my favorites are Jose's and the Ice Cream Counter. I love the pineapple, dole whip, and they give our dogs pup cups too. We also love all the food at the Fourth of July Fest like the taco truck and elephant ears. Not only is there good food at the Fourth of July Fest, they also have awesome rides and games to win prizes. We also love the car shows that happen in downtown.

Downtown Highland is safe because the speed limit is slow, people are friendly, *and* there's lots of police officers. Most of the robbers are in jail right now. You can thank the Highland Police force for that one. Also people in Highland chose to be good most of the time. But still lock your doors at times just in case. Moving on to the Highland fire department you should always have a plan during a fire. Highland schools will have a fire drills. That's what makes so great- it's safe.
