What Makes Downtown Highland Fun For Me

Downtown Highland is a popular area in the small town of Highland, Indiana. While there are plenty of choices for everyone, my personal favorite part of downtown Highland is the general atmosphere. As a Highland resident all my life, I don't see how one could pinpoint one particular feature that's best when there are so many great options that come to mind. Downtown Highland offers fairs, restaurants, little shops, events, and even beautiful lights during the holidays. It has a small town feel that makes it enjoyable for everyone.

Many of my special memories come from the many events held in downtown Highland, specifically the Highland Fair in the month of July which holds craft booths to walk around, rides, different food options, and even the live bands. Highland Fair is an overall great experience that attracts many Highland residents and even residents from neighboring towns! Also, attending plays held at Main Square and being able to watch some of my friends act in the plays make for a great night downtown! Restaurant options such as Sakura Bowl, The Counter Ice Cream and Italian Ice, Langels and Les Cafe Pancake House adds diversity to food options this location offers. Sip Coffee House is very popular among students of Highland. This is a great place students enjoy to hang out at, grab a snack, or even a nice area to study. Also, events such as bar and restaurant crawls that tend to be very popular make for an exciting night to get out and try different places!

The beauty of downtown Highland is definitely eye-catching. One can find murals painted on some of the buildings, such as one being right next door to sip. This is a popular place to take pictures at and simply visit with friends to admire the artistic beauty. While these are just a few of the things located in downtown Highland, there are also park cleanups held, which is a great way to get out and support the Highland community to keep our parks clean and give back to our town for a better living space. Overall, downtown Highland is a great spot to visit when in town, and is an even better place to spend time with friends and family!
