General Substance and Discussion

1. Web Design proposal. Chris Gierymski introduced himself, he is a Highland Resident for 30 some years. Commissioner Conley asked if does any other websites for the Town now? Chris said, I do the Parks Dept. He explained he has been doing this type of work for 10 plus years, I organized my own company, Incorporated.

Discussion on what needs to be posted as far as agendas and minutes, with Attorney Reed and President Conley. Attorney Reed stated that we are not required to post the Agenda and Minutes, it is done as a gratuitously. Anyone is welcomed to come to Town Hall and make a request to review, there is rules. So, don't be under the misconception that we are required to do this. It is required to post them on the board and anything that has to be public meeting, is a legal notice in the paper. If it's budgetary at least 10 days before the meeting. If it's a notice of the calling of a meeting, its 72 hours, prior. But there is not requirement that it be on the internet.

Commissioner Georgeff asked Chris, if that is what he does for the Park Dept, upload the minutes. Chris said yes, mostly Minutes no Agendas. Commissioner Robertson asked if this is something that would have to go through him or is it simple enough so we can do it. Chris said, no its something he would do. President Conley asked what kind of turnaround time for that type of request? Chris said almost immediately. Director Becerra asked how long has he been doing the Park Dept., 5 years? Chris said longer than that. The park dept spoke highly of his work. Chris mentioned other company's he does this work for. This proposal would just be for the Redevelopment Commission. This would be a link from the Town Website, like the Park Dept has. President Conley thanked Chris for attending and they will take this into consideration.

The meeting was adjourned by President Sean Conley at 6:43 pm.
